

# LET'S PRACTICE TOGETHER!!

## You're Welcome

By: Dwayne Johnson

You can listen to the song at the end of the lyrics

Okay, okay, I see what's happening here

You're (1).....with greatness, and it's strange

You don't even know how you feel

It's adorable

Well, it's nice to see that (2).....

Open your eyes, let's begin

Yes, it's really me, it's Maui

(3)..... It in

I know it's a lot

The hair, the bod

When you're staring at a demi-god

What can I say except, "You're welcome"

For the tides, (4).....

Hey, it's okay, it's okay

You're welcome

I'm just an (5)..... demi-guy

Hey

What has two (6)..... the sky

When you were waddling yea high?

This guy

When the nights got cold

Who stole you fire from down below?

You're lookin' at him, yo

Oh, also I (7)..... the sun

You're welcome

To stretch your days and bring you fun

Also I (8)..... the breeze

You're welcome

To fill your sails and shake your trees

So what can I say except you're welcome

For the islands I pulled from the sea

There's no need to pray, it's okay

You're welcome

Ha, I guess it's just my way of being me

You're welcome

You're welcome

Well, come to think of it

Kid, (9)..... I could go on and on

I could explain every natural phenomenon

The tide, the grass, the ground

Oh, that was Maui just (10)..... around

I killed an eel

I buried its guts

(11)..... a tree, now you got coconuts

What's the lesson?

What is the take-away?

Don't mess with Maui when he's on a break-away

And the tapestry here on my skin

Is a map of the (12)..... I win

Look where I've been

I make everything happen

Look at that mean mini-Maui just tickety-tappin'

(Ha ha ha ha ha ha, hey)

Well, anyway let me say, "You're welcome" (you're welcome)

For the (13)....., world you know

Hey, it's okay, it's okay, you're welcome (you're welcome)

Well, come to think of it, I gotta go (hey)

Hey, it's your (14)....., "You're welcome" (you're welcome)

'Cause I'm gonna need that boat

I'm sailing away, away, you're welcome (you're welcome)

'Cause Maui can do (15)..... but float

You're welcome

(You're welcome)

You're welcome

And thank you

We believe the Earth is about 4.6 billion years old. At present, we are forced to look to other bodies in the solar system for hints as to what the early history of the Earth was like. Studies of our moon, Mercury, Mars, and the large satellites of Jupiter and Saturn have provided ample evidence that all these large celestial bodies had formed. This same bombardment must have affected Earth as well. The lunar record indicates that the rate of impacts decreased to its present low level about 4 billion years ago. On Earth, subsequent erosion and crustal motions have obliterated the craters that must have formed during this epoch.

Scientists estimate the Earth's age by measuring the ratios of various radioactive elements in rocks. The oldest Earth's rocks tested thus far are about  $3 \frac{1}{3}$  billion years old. But no one knows whether these are oldest rocks on Earth. Tests on rocks from the moon and on meteorites show that these are about 4.6 billion years old. Scientists believe that this is the true age of the solar system and probably the true age of the Earth
