Read the following passage and write the letter A, B, C or D on your answer sheet to indicate the correct word or phrase that best fits each of the numbered blanks.

Life in the modern world is very busy for almost everybody and we all need to plan our time carefully. Possibly the (25)\_\_\_\_\_ way to do this is to write a weekly 'to-do' list.

The best time to write your list is at the weekend. Go somewhere quiet and think about all the things you must do in the following week. Put them into two groups: first, those you can do any time, such as going to the hairdresser or (26)\_\_\_\_\_ your room. Then think about more urgent things, like getting a present for your girlfriend or boyfriend, especially if it's their birthday on Monday! Decide which things you will do on which day of the week. Very long lists are not a good idea; it's much better to choose just a (27)\_\_\_\_\_ jobs for Monday and a similar number for the other days of the week.

Early each morning, look at your list. You need to have a plan for the day, (28)\_\_\_\_\_ decide what order you will do everything in. When you finish a job, put a line through it. You might not complete all your jobs every day. If it's really impossible to finish doing something, you can add it to your list for the next day, but make sure you do it first!

Read the following passage and write the letter A, B, C, or D on your answer sheet to indicate the correct answer to each of the questions.

For one group of children aged between ten and fifteen, Saturdays are spent learning the art of serious cooking. Their weekly lessons in small classes are so popular that there is a waiting list of 30 children who want to do the course. Parents pay £280 for the course where their children can have fun and learn how to make good food.

Class member Bill, aged ten, says, "I love my mum's cooking and now I can do it better than her. The teachers make us laugh, especially when we sit down with them to share the food we've made."

Flora is twelve, and she's having problems preparing onions. "I love cooking. I did a meal for ten friends which they really enjoyed. Then my mum suggested I take up a hobby,

instead of doing nothing at weekends. I was happy staying at home, so I wasn't too keen at first. I'm really glad I decided to come, though."

Their teacher, Philippe, says, "It's great fun. Children pay attention and remember things better than adults, although the kitchen isn't always as tidy when they're cooking! As adults, we're always learning more about food. If parents interest their children in cooking while they are young, they'll have enough skill to make food for themselves when they leave home."
