

How can industrial activity be classified?

There are many different types of industry. We can classify industry into three main categories:

Primary

These industries extract raw materials directly from the earth or sea.

Secondary

These industries process and manufacture products from raw materials.

Tertiary

These industries provide a service.

PRINCIPLES OF BUSINESS

FORM 2 QUIZ (MAY, 2023)

PRODUCTION

A. INSTRUCTIONS: Complete the table below by putting the words under the correct type of production.

| Primary production | Secondary Production | Tertiary Production |
|--------------------|----------------------|---------------------|
| | | |
| | | |
| | | |
| | | |
