59. Only seventeen on (A) one hundred business (B) calls get through (C) to the correct person on (D) the first attempt.
60. There are (A) more potatoes cultivated (B) than any the other (C) vegetable crop worldwide (D) .

Read the following passage and mark the letter A, B, C, or D to indicate the correct answer to each of the following questions.

WITCH DOCTORING

Many early ideas about the causes and cures of illness seem ridiculous to us today. Yet in some respects the medicine man of uncivilized tribes used method for curing sick persons which are now known to have had real value.

In early times when people became ill, they turned for help to the medicine man of the tribe. It was generally believed that sickness was caused by evil spirits, and it was the medicine man's task to drive these bad spirits out of the sick man. To do this, he would try to frighten them away by making loud noises and wearing frightful masks. Usually he would chant magic words, sing special songs, and perform special dances. Nearly always he used a particular kind of plant which was supposed to be a remedy for a particular sickness.

Some of these cures used by the medicine men did help. The plants which these early doctors used were frequently drugs now understood to be medicinal or pain-relieving. The respect and confidence which the people had in their medicine man gave sick persons hope and helped them feel better.

61. While not directly stated, it can be reasoned from the article that _____ .

A. witch doctors have always failed

B. witch doctors have never failed

C. witch doctors might have cured some people

- A.evill spirits B.sick persons
C.other medicine men D.magic words

Read the following passage and mark the letter A, B, C, or D to indicate the correct answer to each of the following questions.

The Great Pyramid of Giza, a monument of wisdom and prophecy was built as a tomb for Pharaoh Cheops in 2720 B.C. Despite its antiquity, certain aspects of its construction make it one of the truly great wonders of the world. The four sides of the pyramid are aligned almost exactly on true north, south, east and west – an incredible engineering feat. The ancient Egyptians were sun worshipers and great astronomers, so computations for the Great Pyramid were based on astronomical observations.

Explorations and detailed examinations of the base of the structure reveal many interesting lines. Further scientific study indicates that these represent a type of time line of events – past, present, and future. Many of the events have been interpreted and found to coincide with known facts of the past. Others are prophesied for future generations and are presently under investigation.

Was this superstructure made by ordinary beings, or one built by a race far superior to any known today?

66. Approximately how long ago was the Great Pyramid constructed?

- A. 665 years B. 2,720 years C. 4,025 years D. 4,735 years

67. On what did the ancient Egyptians base their computations?

- A. Observation of the celestial bodies. B. Advanced technology.
C. Advanced tools of measurement. D. Knowledge of the earth's surface.

68. Why was the Great Pyramid constructed?

- A. As a solar observatory. B. As a religious temple.
C. As a tomb for the pharaoh. D. As an engineering feat.
