How can I help keep rivers and seas clean? A lot of the pollution in our rivers and in the sea doesn't come from big factories, but from the things we do 1_____ day. For example, the soaps and chemicals 2 _____we use to clean our homes go down into the water system through pipes and in the end, lots of these chemicals go 3 _____the sea. If we don't use cleaning products with chemicals in them, we 4 _____pollute the seas. Another way we can keep our rivers and seas cleaner is to make sure we never drop litter on the streets. If we 5 _____our paper, bottles and cans away on the street, the wind blows the litter into rivers 6_____ then take the litter to the sea.
