

Part 6

– 10 questions –

Read the text. Choose the right words and write them on the lines.

Astronauts

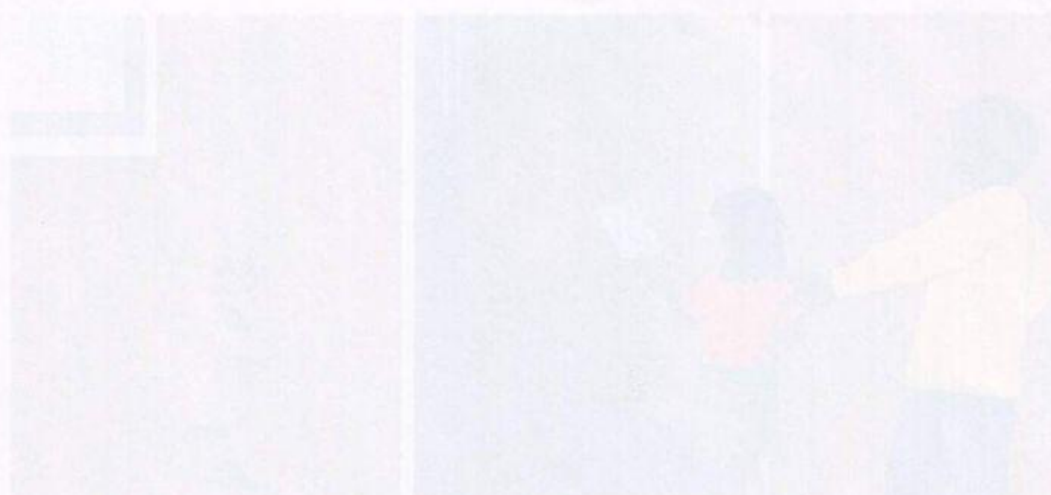

Example

- The planets and stars are very far away from us. For many years people have *wanted* to visit space and the moon. People
- 1 go into space are called 'astronauts'. The first
 - 2 astronaut went into space about 40 years , and some
 - 3 people went to the moon about 8 years
 - 4 It is dangerous in space. Small pieces of rock past very
 - 5 quickly all the time. There is no air, so there are no animals or plants.
 - 6 Astronauts have to take air, water and food them. In
 - 7 space, you pick up very heavy things easily, but it is
 - 8 difficult to eat and drink. is very strange for astronauts.
 - 9 It isn't good for our bodies to be in space for long time.
 - 10 Astronauts don't usually stay there for very long, some
 - have stayed for a year without any problems. Perhaps in the future
 - we all visit the moon or have holidays in space.
