

EVALUASI

10.

Hi, I am Kenjiro. I am from Japan but I live in Indonesia now. I want to tell about the seasons. There are two seasons in Indonesia. They are dry and rainy season. Dry season lasts for six months. It is April to September. The weather is dusty. The sky looks clear.. While rainy season lasts for six months. It is from October to March. The rain falls everyday in this season.

Different from Indonesia, Japan has four seasons. They are spring, summer, autumn, and winter. I like spring because the weather is nice. The flowers start to bloom. Everything turns into green. In this season, I usually play at the park with my friends.

What does the text in paragraph 1 tell you about?

- A. The season in Indonesia.
- B. The season in Japan
- C. The weather in Indonesia
- D. The weather in Japan
