Read and answer

Rob 10

There won't be much land, so there will be big cities underwater, and we will travel in submarines. I think some houses will be underground too, but I won't live in an underground house. I'll live in an underwater house with glass walls. I will see fish swimming around!

Lara 10

I agree with Rob. There won't be many parks or green spaces. There will be lots of cars and planes, so pollution will be very bad. We won't have a lot of fresh food, so people will eat lots of junk food. There will be food pills too.

Khalil 11

I disagree. I think the world will be a cleaner place in the future, because we won't use petrol or other fossil fuels. We will use energy from the sun to power our cars and houses. I think cars will be very fast and some cars will fly too!

Jasmine 11

I think computers will be very small in the future. We will have computers in our clothes and we will use our voices to control them. We'll learn lots of interesting things. We will use virtual reality to study. We won't go to school, but we'll meet our teachers and friends in cool virtual places, to learn about the world

1-)Why does Rob think there will be big cities under water?

.....

2)Where will Rob live in?

.....

3)Why does Lara think pollution will be very bad in the future?

.....

4)Why does Lara think we'll eat more junk food?

.....

5-How does Khalil think we will power our cars?

.....

6-How does Jasmine think we will control computers?

.....

7-Who wants to live in an underwater house?

.....

Saber Mousa
