Transport in the future

by Gabriella Marques

I'm sure transport twenty-five years from now will be different. Some people think we won't use cars and we will all travel in small planes, but I don't think this will happen. I think everybody will use public transport.

Maybe there will be an underground in every town and city. The streets will be for electric trams or buses and the air will be cleaner. I hope more people will ride bicycles because exercise is good for your health. When we want to visit another city or country, we will take a very fast train.
