Johnny

When I'm older, I'm going to spend a whole year travelling the world. I'm going to visit every continent and see as many countries as possible. I'm going to try all the local food and make lots of new friends. I should start learning some other languages now!

Sara and Olivia

Me and my twin sister are going to study Ecology at university. After that, we aren't going to buy a house, we're going to live in a caravan! We're going to have a small farm and grow all our own food. We aren't going to use anything made of plastic.
