

Name: _____

Class: _____

According to the video “What Happens If AI Replaces All Jobs?” which statements are True or False?

1. If AI (Artificial Intelligence) took over and replaced most workers, unemployment would soar. _____
2. If no one were able to purchase goods, companies wouldn't suffer. _____
3. If only one company replaced its workforce with AI, that would be generally a good thing for that company. _____
4. If every company replaced all their workers, that would also be a good thing for everyone. _____
5. If everyone got some money (a Universal Basic Income), this problem could be solved _____
6. If AI took over, we would need to create jobs that don't even exist right now. _____

Good luck!
