

LISTEN AND FILL IN THE BLANKS

Beautiful Nature

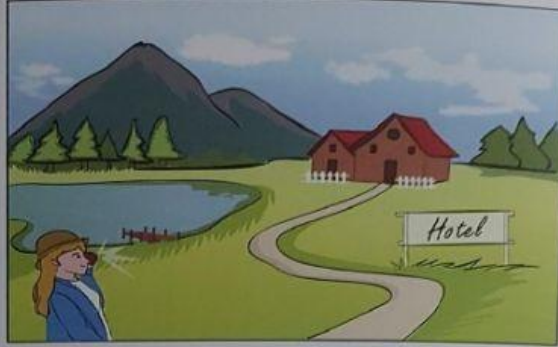

My name is Emma and I am a travel writer. I get all the time; I just love traveling to new places.

The place I love most is Brazil. Brazil has so many **beautiful beaches** and **waterfalls**. It is more **dangerous** than some countries because it is so **easy** to get lost there. Brazil is about the as Australia!

There are lots of **dangerous** animals in Brazil such as snakes, spiders, and . One time, I was walking in the **forest** with my friend and I thought I saw a snake. I so loud that my friend nearly had a heart attack. Well, it turns out it was just . Seriously though, I can't stand snakes!

Brazil has one of the **biggest hot springs** in the world and there are some **beautiful islands** too so it's an place to relax.

Beautiful Nature

Another place I love is France. France is not as **exciting** or **interesting** as Brazil but the food is more **delicious** than the food in Brazil. However, there are some that I really cannot eat such as frogs' legs ... oh, and snails!

When I go to France, I like to stay in by the **mountains**. There are lots of **forests** and **lakes** but not many people so it's more than other places I go to.

1. What beautiful nature is there in Brazil?
2. Why is Brazil more dangerous than other countries?
3. Is Brazil bigger than Australia?
4. What do you know about the hot spring in Brazil?
5. What did Emma see in the forest?
6. Why does Emma like France?
