

English Exam - End-of-term

Book: Cambridge Combo 3

Teacher Ester

Student's name: _____

PART I - READING COMPREHENSION

1. Read the text and do the tasks below:

Animals are fascinating creatures that come in various shapes and sizes. Let's explore some common animals and learn about them!

Let's start with some mammals. Dogs and cats are popular pets. Dogs are friendly and loyal. They have a good sense of smell and can be trained easily. Some dogs are bigger than others. For example, a Great Dane is larger than a Chihuahua. The German Shepherd is one of the most intelligent dog breeds.

Cats are more independent animals. Cats can see well in the dark. Cats are faster than dogs. The cheetah, a wild cat, is the fastest land animal.

Birds are diverse creatures. They have feathers and can fly. Birds lay eggs to reproduce. Penguins cannot fly, but they swim very well. The ostrich is the largest bird in the world, while the hummingbird is the smallest.

Fish live in water. Goldfish are more popular than sharks, because sharks are larger and more dangerous than most other fish.

Insects are small creatures with six legs. Bees are important for pollination, and they make honey. The butterfly is one of the most beautiful insects. It undergoes a remarkable transformation from a caterpillar to a colorful butterfly.

These are just a few examples of common animals. Remember, there are many more animals to discover and learn about!

1.1 Choose TRUE (T) or FALSE (false) according to the text:

1. There are dogs that are bigger than others. ()

2. Cats are faster than dogs. ()
3. The cheetah is the largest land animal in the world. ()
