

ME AND MY GADGETS

I'm Tony, I'm a 14-year-old boy ... and I love my gadgets. I've got a tablet, a smartphone and an e-reader, and I'm always looking at one of them.

I use my tablet to read the news and to chat to my friends. It's good, too, when I'm on the bus. I always use it to listen to music.

I use my smartphone ... well, of course, to make phone calls and to send text messages. I've got lots of apps, too – especially apps about football and music, because they're my favourite free-time activities.

And my e-reader? I use it to read books. I love reading and my parents and other people in my family often give me ebooks to read (for my birthday, for example). I like reading before I go to sleep. I often read 10 or 12 pages at night.
