Digital Citizenship: Rule of Thumb

Class : Lower

A good rule of thumb when trying to decide whether or not you should share something online is that anything you share online could potentially be seen by anyone and everyone. It could also be out there in the world for others to see FOREVER. Sometimes, instead of sharing something online, you may choose to discuss it with a trusted adult. They can help you make the best decision. Read each situation below and decide if it is something that you should share, keep to yourself, or discuss with a trusted adult.

Case			
	Keep it to yourself	Ok to share	Tell trusted adult
You find a funny video of a baby dancing.			
You receive a message from a stranger asking for your address.			
You draw a beautiful picture of your family			
ou see a mean comment about your friend on social media.

Digital Citizenship: Rule of Thumb

Class : Lower

You see a picture of your favorite cartoon character online.			
You are invited to a party and want to share the news with your classmates.			
You accidentally break a toy and feel sad			
You find a cool game online and want to tell your teacher about it.			

Good Luck
