

A crossword puzzle grid is shown, featuring a central vertical column of 10 squares and a horizontal row of 10 squares intersecting at the 5th square from the top. The grid is composed of white squares with black borders. Several squares are highlighted with red borders. Cartoon characters and arrows are placed around the grid to indicate the starting points for words: a girl in a purple outfit at the top center with a downward arrow; a boy with a dog at the 3rd square from the top with a downward arrow; a boy with a toothbrush at the 2nd square from the top with a downward arrow; a boy with a paint palette at the 4th square from the top with a downward arrow; a boy with a book at the 6th square from the top with a downward arrow; a boy with musical notes at the 1st square from the top with a rightward arrow; a boy with a tennis racket at the 10th square from the top with a leftward arrow; and a boy with a tennis racket at the 10th square from the top with a leftward arrow.
