   c. Gave a lecture on Mathematics.

LIVEWORKSHEETS

II. READING COMPREHENSION (10 POINTS)

A. Read the text and mark the statements true (T), false (F) or don't know (DK).

MAKING IT HAPPEN

Women around the world setting up their own businesses may face similar kinds of barriers, despite the different contexts in which they live and work. But in spite of the problems they face, many have success stories to tell. We asked successful entrepreneurs for their tips for success.

BRIDGING TWO CULTURES

When Jiao Lee moved to Ireland from China, she saw the opportunity to start a business which could help to build bridges between the two countries she loved. She started China Tours as a small travel business, setting up tours between the two countries.

It was hard at first. She had to learn all about setting up a business in a foreign country and she struggled with language barriers. But it was all worth it. China Tours now employs more than forty people and has offices in Ireland and China. Jiao says, 'It has been such an exciting ride setting up China Tours and I've enjoyed every minute. I wouldn't want to work for anyone else now.'

Success Tip – Always keep an eye open for an opportunity. And don't be put off when things seem hard in the beginning. Stick with your ideas, and soon you will find success.

SWEET SUCCESS

When Carmen Spataro set up Sweet Dreams, a mobile cupcake business in her home city of Washington, she used social media to help spread the word about her new business. Travelling around the city in her pink van, selling her freshly-baked cupcakes, Carmen sends her followers updates on Facebook and Twitter, telling them where and when they can find the van. The idea has been a fantastic success, with customers sending each other messages about the new, delicious range of cakes on offer. 'I'm in cupcake heaven,' tweets one of her happy customers. 'I wasn't very confident with the technology at first,' says Carmen. 'But I learned quickly and now I love it. Using social media has helped to add to the sense of fun which we wanted to establish.'

Success Tip – Keep up-to-date with

HATS OFF

Melissa Faith had no idea that her designs for children's hats would lead her to success in business.

She started by making a few hats to sell at a market. The hats were so popular that they sold out almost immediately. 'It was amazing. People were coming back for more and I couldn't keep up with the demand,' she explains. Melissa set up a website to sell the hats online. Loopy Kids HatZone was an instant success and Melissa now exports hats all over the world. 'One of the problems I've had,' says Melissa, 'is that I'm dyslexic, so it's hard for me to keep up with all the paperwork and emailing.' However, she thinks that her dyslexia also helps her to be more creative and to have a fresh approach to problem-solving.

Success Tip – Be prepared for the unexpected. Some of the best things happen when you don't plan for them.

1. Carmen was confident with new technology.

2. She found that language was a problem in the beginning.

3. She sells her cakes around the city from a mobile van.

4. Melissa had always planned to start a company selling hats.

5. She finds it difficult to be creative at work.

LIVEWORKSHEETS

B. Read the following text about the Ig Nobel Prizes, which are an American parody of the Nobel Prizes. For questions 1-5 below, decide which of the options (a, b or c) is true.

The Ig Nobel Prizes

Organized by the scientific humor magazine Annals of Improbable Research (AIR), the Ig Nobel Prizes are presented by a group that includes genuine Nobel Laureates at a ceremony at Harvard University's Sanders Theater.

A parody of the Nobel Prizes, the Ig Nobel Prizes are given each year in early October around the time the recipients of the genuine Nobel Prizes are announced for ten achievements that "first make people laugh, and then make them think". All prizes are awarded for real achievements (except for three in 1991 and one in 1994 due to an erroneous press release).

This is a list of some Ig Nobel Prize winners from 1993 to the present day:

1993. Literature – Presented to E. Topol, R. Califf, F. Van de Werf, P. W. Armstrong, and their 972 co-authors, for publishing a medical research paper which has one hundred times as many authors as pages. The authors are from the following countries: Australia, Belgium, Canada, France, Germany, Ireland, Israel, Luxembourg, the Netherlands, New Zealand, Poland, Spain, Switzerland, the United Kingdom, and the United States.

2000. Chemistry – Presented to D. Marazziti, A. Rossi, and Giovanni B. Cassano of the University of Pisa, Italy, and H. S. Akiskal of the University of California, San Diego, for their discovery that, biochemically, romantic love may be indistinguishable from having severe obsessive-compulsive disorder.

2004. Chemistry – Presented to The Coca-Cola Company of Great Britain, for using advanced technology to convert liquid from the River Thames into Dasani, a brand of bottled water, which for precautionary reasons has been made unavailable to consumers.

2006. Peace – H. Stapleton of Merthyr Tydfil, Wales, for inventing an electromechanical teenager repellent, a device that makes annoying high-pitched noise designed to be audible to teenagers but not to adults; and for later using that same technology to make telephone ringtones that are audible to teenagers but probably not to their teachers.

2009. Literature – Ireland's police service for writing and presenting more than 50 traffic tickets to a Polish individual, by the name of "Prawo Jazdy". Mr. "Jazdy" was widely thought to be the most frequent driving offender in Ireland, until an investigation uncovered the fact that Prawo Jazdy is the Polish term for "Driving License".

1. The Ig Nobel Prizes ...

a. are awarded for making people think before they laugh

b. were mistakenly awarded 4 times

c. have 2 different achievement categories

LIVEWORKSHEETS

2. The Ig Nobel Prizes are given ...

VI. WRITING (15 POINTS)

Write a summary of the story (150–200 words) using the notes.

THE LIFE OF WILLIAM SIDIS

Background
- Lived in New York
- Father: psychologist at Harvard (Russian roots)

Childhood
- Born 1898
- 6 months: could speak. First word = 'moon'.
- 18 months: read newspaper
- 3 years: could type
- As a child, spoke Russian, French, German & Hebrew
- As a child, gave Maths lecture at Harvard Uni
- 11 yrs: attended Harvard Uni

Adulthood
- Wanted a quiet life
- Journalists followed him around and wrote articles about this young genius
- Didn't like fame
- 1944: died

Myths
- His sister = close 2 him & spoke about him after he died
- Knew all world's languages
- Took 1 week to learn a language
- IQ of 250-300

Conclusion
- Not all childhood geniuses will produce great things as adults
- Need to leave people alone to live their lives

William Sidis is sometimes called 'the most intelligent man ever', but he isn't famous and his life was not full of great achievements. He was born .....
