

## AREA AND PERIMETER OF RECTANGLES 2

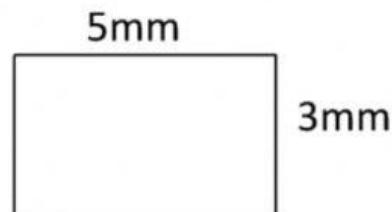

Work out the area and perimeter of the following rectangles.

They are not to scale. Remember - **area inside** and **perimeter outside**.

1)

2)

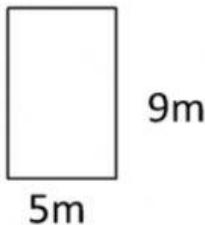

$$\text{Area} = \underline{\hspace{2cm}} \text{ square cm}$$

$$\text{Area} = \underline{\hspace{2cm}} \text{ square mm}$$

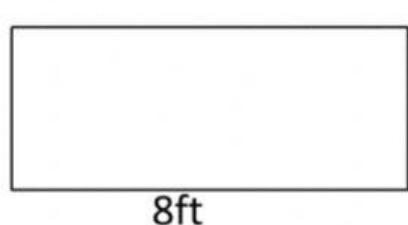

$$\text{Perimeter} = \underline{\hspace{2cm}} \text{ cm}$$

$$\text{Perimeter} = \underline{\hspace{2cm}} \text{ mm}$$

3)

4)

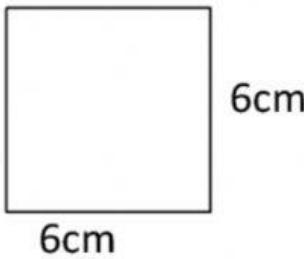

$$\text{Area} = \underline{\hspace{2cm}} \text{ square m}$$

$$\text{Area} = \underline{\hspace{2cm}} \text{ square ft}$$

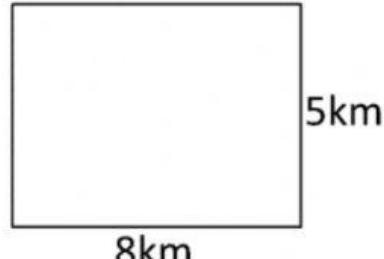

$$\text{Perimeter} = \underline{\hspace{2cm}} \text{ m}$$

$$\text{Perimeter} = \underline{\hspace{2cm}} \text{ ft}$$

5)

6)

$$\text{Area} = \underline{\hspace{2cm}} \text{ square cm}$$

$$\text{Area} = \underline{\hspace{2cm}} \text{ square km}$$

$$\text{Perimeter} = \underline{\hspace{2cm}} \text{ cm}$$

$$\text{Perimeter} = \underline{\hspace{2cm}} \text{ km}$$
