

LISTENING

You are going to listen to people in five different situations talking about friends. For each question choose the correct answer.

1. You are going to listen to a radio advice programme. Why is the girl asking for advice?

- a. She's unhappy about a change in her friend's behaviour.
- b. She's worried that her friend is being dishonest.
- c. She's heard that her friend is talking behind her back.

2. You hear a boy talking to a friend's mother. What is the problem?

- a. His friend hasn't made an effort to keep in touch.
- b. He doesn't have his friend's new mobile phone number.
- c. The mother doesn't know where her daughter is.

3. You hear an argument between two friends, Carole and Patricia. Why is Carole angry?

- a. Patricia didn't come on time to their meeting.
- b. Sean asked Patricia out instead of her.
- c. Patricia didn't remember about their meeting.

4. You are going to listen to a teacher talking to his class about friendship. What is the subject of the article he wants the students to read?

- a. The way boys and girls react when friends let them down
- b. How difficult it is for boys and girls to become close friends
- c. How easy it is for boys and girls to disappoint their friends

5. You hear a psychologist talking about the importance of having a best friend. What does he say about childhood friendships?

- a. The experiences children have will be mostly positive.
- b. Having a best friend gets you ready for future relationships.
- c. Many children find it hard to make up after fighting with a friend.
