### IV. Read and write some words to complete the sentences. (..... / 9)

Do you want to live in space? The best place to live in space is on the International Space Station. It is a place for people to learn more about space. People there must be very careful because they don't want to use lots of water. They must use special soap and shampoo. When they eat breakfast, they must be careful because they don't want their food to float away. It is not easy to stay strong in space, so they exercise for more than two hours every day. For fun, people can read books, watch movies, listen to music and look out the windows at Earth.
