

3RD GRADE - MATHS

MORE ON LONG DIVISION

INTERACTIVE WORKSHEET 06

I. Divide the numbers by long division method and find the quotient and the remainder.

- | | | | |
|----------------|-----------------|---------------------------------|----------------------------------|
| 1. Divisor = 9 | Dividend = 999 | Quotient = <input type="text"/> | Remainder = <input type="text"/> |
| 2. Divisor = 4 | Dividend = 948 | Quotient = <input type="text"/> | Remainder = <input type="text"/> |
| 3. Divisor = 3 | Dividend = 698 | Quotient = <input type="text"/> | Remainder = <input type="text"/> |
| 4. Divisor = 6 | Dividend = 389 | Quotient = <input type="text"/> | Remainder = <input type="text"/> |
| 5. Divisor = 7 | Dividend = 487 | Quotient = <input type="text"/> | Remainder = <input type="text"/> |
| 6. Divisor = 5 | Dividend = 8900 | Quotient = <input type="text"/> | Remainder = <input type="text"/> |
| 7. Divisor = 8 | Dividend = 9909 | Quotient = <input type="text"/> | Remainder = <input type="text"/> |
| 8. Divisor = 2 | Dividend = 4098 | Quotient = <input type="text"/> | Remainder = <input type="text"/> |

II. Write the missing numbers.

1. $\times 9 = 396$

2. $\times 4 = 5068$

3. $7 \times$ $= 8680$

4. $\times 5 = 9175$

5. $3 \times$ $= 3069$

6. $2 \times$ $= 168$

7. $\times 6 = 588$

8. $8 \times$ $= 9920$

9. $\times 4 = 480$
