PET 2 The bad air of Treasure Island

Read the text below and choose the correct word for each space. For each question, mark the letter next to the correct word – A, B, C or D.

Treasure Island is dangerous place, but not just (0) of the pirates. Dr Livesey (1) that the wet climate could (2) people ill. The doctor does not know the real reason (3) wet, tropical climates are dangerous. He thinks the illness comes from the 'bad air'. Actually, it is malaria (this word (4) 'bad air' in Italian) that makes people ill. Malaria is a parasite that enters the human body when a mosquito bites you. The true origin of this disease was not (5) until 1880.

Scientists think that humans have always had malaria. The first written reference to malaria was in China about 5000 years (6) The Greek doctor Hippocrates described the symptoms of malaria (7) 400 BC.

Malaria has been eliminated from many parts of the world, (8) it is still a major problem. About 500 million people get this disease every year, and 2.5 million of these die. (9) health organisations are looking for new ways to fight (10) terrible disease.
