MONEY

INTERACTIVE WORKSHEET 05

I. Thapar's shop sells boxes of different kinds.

₹ 101

₹ 110

₹ 75

₹ 99

₹ 164

1. Diya bought a box for ₹75 and another box for ₹164. She gave Thapar 2 notes of ₹100 and a note of ₹50. How much did she spend and how much did she get back?

Amount spent by Diya = ₹75 + ₹164 = ₹ .

Amount spent by Diya = ₹100 + ₹100 + ₹50 = ₹ .

Amount she got back = ₹250 - ₹ = ₹ .

Diya bought boxes for ₹ and got back ₹ .

2. Tina wants to buy 2 boxes for her friends. She has a total of ₹200 with her. Which 2 boxes can she buy if the shopkeeper returns ₹15 to her?

Total amount that Tina has = ₹ .

Amount the shopkeeper returns to her = ₹ .

Thus, amount she spent = ₹ - ₹ = ₹ .

Two boxes Tina bought are = ₹ + ₹ = ₹ 185.
