Hollywood and Bollywood

A. Reading Comprehension

HOLLYWOOD

Hollywood is a neighbourhood in Los Angeles, California. It's the home of the American film industry. The first film was made in Hollywood in 1911. These days Hollywood studios make about 500 films every year, but that number is going down because now studios are making more TV dramas. Hollywood makes all types of films including action films, dramas, comedies, horror films and musicals. There are hundreds of film stars in Hollywood. Dwayne 'The Rock' Johnson is the best paid male actor and Scarlett Johansson is the best paid female actor. Dwayne earns about \$30 million more than Scarlett. She is famous for playing Black Widow in the Avengers films and in total her films have made over \$14.3 billion worldwide.

In the photo, people are waiting outside the cinema to see the latest *Bollywood* film in Delhi, India. The name *Bollywood* comes from Bombay (Mumbai) and *Hollywood*. The Bollywood film industry makes over 1,000 films every year. Bollywood makes romantic films and action films, but it is most famous for its musicals. They are funny, romantic and enjoyable, but they are definitely not serious.

Popular actors are very famous in India. Shah Rukh Khan is the 'King of Bollywood' and he has starred in more than 80 films. Deepika Padukone Singh is the queen and she is very busy. She sometimes makes four or five films every year! These two actors help Bollywood to be successful. Over three billion people watch Bollywood films every year!
