

Earth's Crust Practice Worksheet

[Visit CK12.org](http://www.ck12.org) for Free Online Practice

1. Continental crust is made up of
 - a. Igneous rock
 - b. Metamorphic rock
 - c. Sedimentary rock
 - d. All of the above

2. Oceanic crust is thicker and less denser than continental crust.
 - a. TRUE
 - b. FALSE

3. The oceanic crust is mostly made of magma that has the composition of this rock.
 - a. Quartz
 - b. Granite
 - c. Basalt
 - d. Obsidian

4. The continental crust rises higher on the mantle than the oceanic crust because of its relatively low density.
 - a. TRUE
 - b. FALSE

5. Crust is thick relative to Earth's radius.
 - a. TRUE
 - b. FALSE

6. The continental crust has an average thickness of :
 - a. 35 km
 - b. 10 km
 - c. 50 km
 - d. None of the above

7. The core is thin relative to the mantle and crust. It is composed of brittle rock.
 - a. TRUE
 - b. FALSE

8. Which of the following is true for oceanic crust?

- a. It is thicker than continental crust
- b. It is felsic in nature
- c. It makes up the sea floor
- d. Both A and B

9. Oceanic crust is

- a. Basalt lava on top of gabbro
- b. A granitic layer with sediments on top
- c. Almost all formed from basalt lava
- d. Almost all formed from granitic rock

10. Another word used for the Earth's crust is the biosphere.

- a. TRUE
- b. FALSE
