The family in the tree

William loves going to stay with Grandma and Grandpa. They live on a farm in the countryside. Last summer when he was there, his grandpa helped him to make a house in one of the trees. They put a little chair into it and William played in his tree house every day.

William and his parents went to the farm again last weekend. William ran to the tree to see his house. It was full of leaves so he had to get a brush and clean the floor. When William looked in the corner of the house he saw five small eggs, which were on some dry grass on a little chair.

He climbed down the tree and ran to get his grandpa. 'Come and see,' he shouted.

Grandpa came to see the eggs. 'Can I take them back to your house?' asked William. 'No,' Grandpa said. 'Let's wait for the mother bird.'

William and his grandpa sat quietly in the tree house and waited. Then a grey and white bird came back to the eggs.

William had to go home the next day, but three days later his grandma phoned him, 'Come back to the farm quickly!' she said.

William's mum took him to the farm in the car after school. They climbed the tree very quietly and they looked into the tree house very carefully. There were five little baby birds on the chair.

Planets

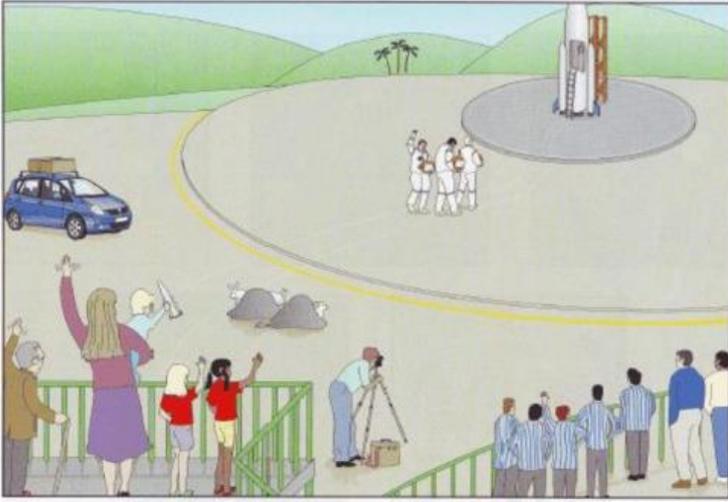

- Example** We live on one of nine planets. The name of our planet
- 1 is Earth. The other eight planets are Mars, Mercury,
Venus, Neptune, Uranus, Pluto, Jupiter and Saturn. The planets
- 2 are like big balls of rock and metal and they go round
the sun. The sun is not a planet, it is a very big star.
- 3 Jupiter is bigger the other planets and it has got 16
moons. Pluto is the smallest planet, and it is the coldest one because
- 4 it is very far from the hot sun. Pluto has got one moon.
Mercury is the nearest planet to the sun and it is very hot.
- 5 Our planet Earth is Venus and Mars but they are very
6 far from us. Rockets take very long time to go from one
7 planet to another. Earth is the only planet things grow
and people and animals live. Some people think that there are people
- 8 animals on some of the other planets. No one has
9 ever to the other planets.
- 10 Perhaps people go to visit the other planets in the
future.
