

THE IT COMPARATIVES

Turn these adjectives into comparatives. Add "than" if needed, "-" if not.

1. Slack is (easy) to use Discord 🧠, but it's much (expensive) 💰.
2. Her code 👩💻 is usually (neat) mine. I still have a lot to learn but I think I'm getting (good) 👍.
3. Working for the US 🇺🇸 is (scary) working for ARG 🇦🇷. As projects are (big), the responsibilities are (great). The language barrier also makes work (difficult).
4. Computers 💻 have become (fast) over the years, requiring (little) data analysis 🕒 time and enabling (responsive) apps.
5. The (frequent) your backups 💾, the (low) the risk of data loss.
6. There is nothing (bad) having no internet, except maybe having really slow 🐢 internet. I can't decide which one is actually (annoying).
