Lectura – Día de los Muertos

Read the following and answer the questions based on the reading.

Día de los Muertos, also known as Day of the Dead, is a special holiday celebrated in Mexico and other places with Mexican heritage. It is a time to remember and honor friends and family members who have died. The holiday starts on November 1st and ends on November 2nd. People create altars in their homes to remember their loved ones who have passed away. They decorate the altars with flowers, candles, and pictures of the deceased. They also visit graves and bring gifts like food and beverages for the dead. It is a time to celebrate the lives of those who have passed away and to remember the happy times with them.

The Day of the Dead has its origins in the rituals practiced by the indigenous peoples of the Americas, like the Aztecs and Maya. These ancient cultures believed that death was a part of the journey of life and that new life came from death. They saw it as a cycle, just like how crops grow from the ground where the last crop is buried. That's why Día de los Muertos is a celebration of life, not just death. People celebrate with music, dancing, and even funny stories about the departed. They also make colorful skulls and skeletons called calaveras and calacas as decorations. These can be made out of sugar or other materials. It is a joyful holiday filled with love and remembrance.

Día de los Muertos is an important part of Mexican culture and has been recognized by UNESCO as an important cultural heritage. It is a time for families to come together and honor their ancestors. The holiday has also spread to other countries, including the United States, where Mexican communities continue to celebrate their traditions. It is a beautiful and meaningful holiday that teaches us to remember and celebrate the lives of those who have passed away.
