

SISI = 12 CM

$$\begin{aligned}\text{Luas} &= \text{sisi} \times \text{sisi} \\ &= \boxed{} \times \boxed{} \\ &= \boxed{} \text{ cm}^2\end{aligned}$$

$$\begin{aligned}\text{Kell} &= 4 \times \text{sisi} \\ &= \boxed{} \times \boxed{} \\ &= \boxed{} \text{ cm}\end{aligned}$$

keliling = 68 cm

$$\begin{aligned}\text{sisi} &= \text{keliling} : 4 \\ &= \boxed{} : \boxed{} \\ &= \boxed{} \text{ cm}\end{aligned}$$

Luas = 196 cm²

$$\begin{aligned}\text{sisi} &= \sqrt{\text{luas}} \\ &= \sqrt{} \\ &= \boxed{} \text{ cm}\end{aligned}$$
