2 Listen to the song. Match the verses to the pictures.

What is nature?

The fish in the ocean,

The deserts and jungles,

The weather and the seasons,

Why should we care?

The birds in the trees,

The forests and trees,

The rain and the sun,

'Cause nature gives us life,

All kinds of animals

The mountains and lakes,

Daytime and night time,

And nature is everywhere.

From elephants to bees.

The flowers and leaves

That's nature, everyone!
