

*Unit 3 - Addition and Subtraction*

Name:

Class:

Date:

We can reverse the equation. Change the + to a - and use the two numbers that we already have.

$$18 + \underline{\hspace{2cm}} = 100$$

$$632 + \underline{\hspace{2cm}} = 688$$

$$126 + \underline{\hspace{2cm}} = 249$$

$$325 + \underline{\hspace{2cm}} = 550$$

$$632 + \underline{\hspace{2cm}} = 688$$

Name:

Class:

Date:

$$189 - \text{Yellow Brick} = 87$$

Change the question to an addition problem.

$$189 - ? = 87 \text{ becomes } 87 + ? = 189$$

$$632 - \text{Yellow Brick} = 588$$

$$126 - \text{Yellow Brick} = 56$$

$$325 - \text{Yellow Brick} = 120$$

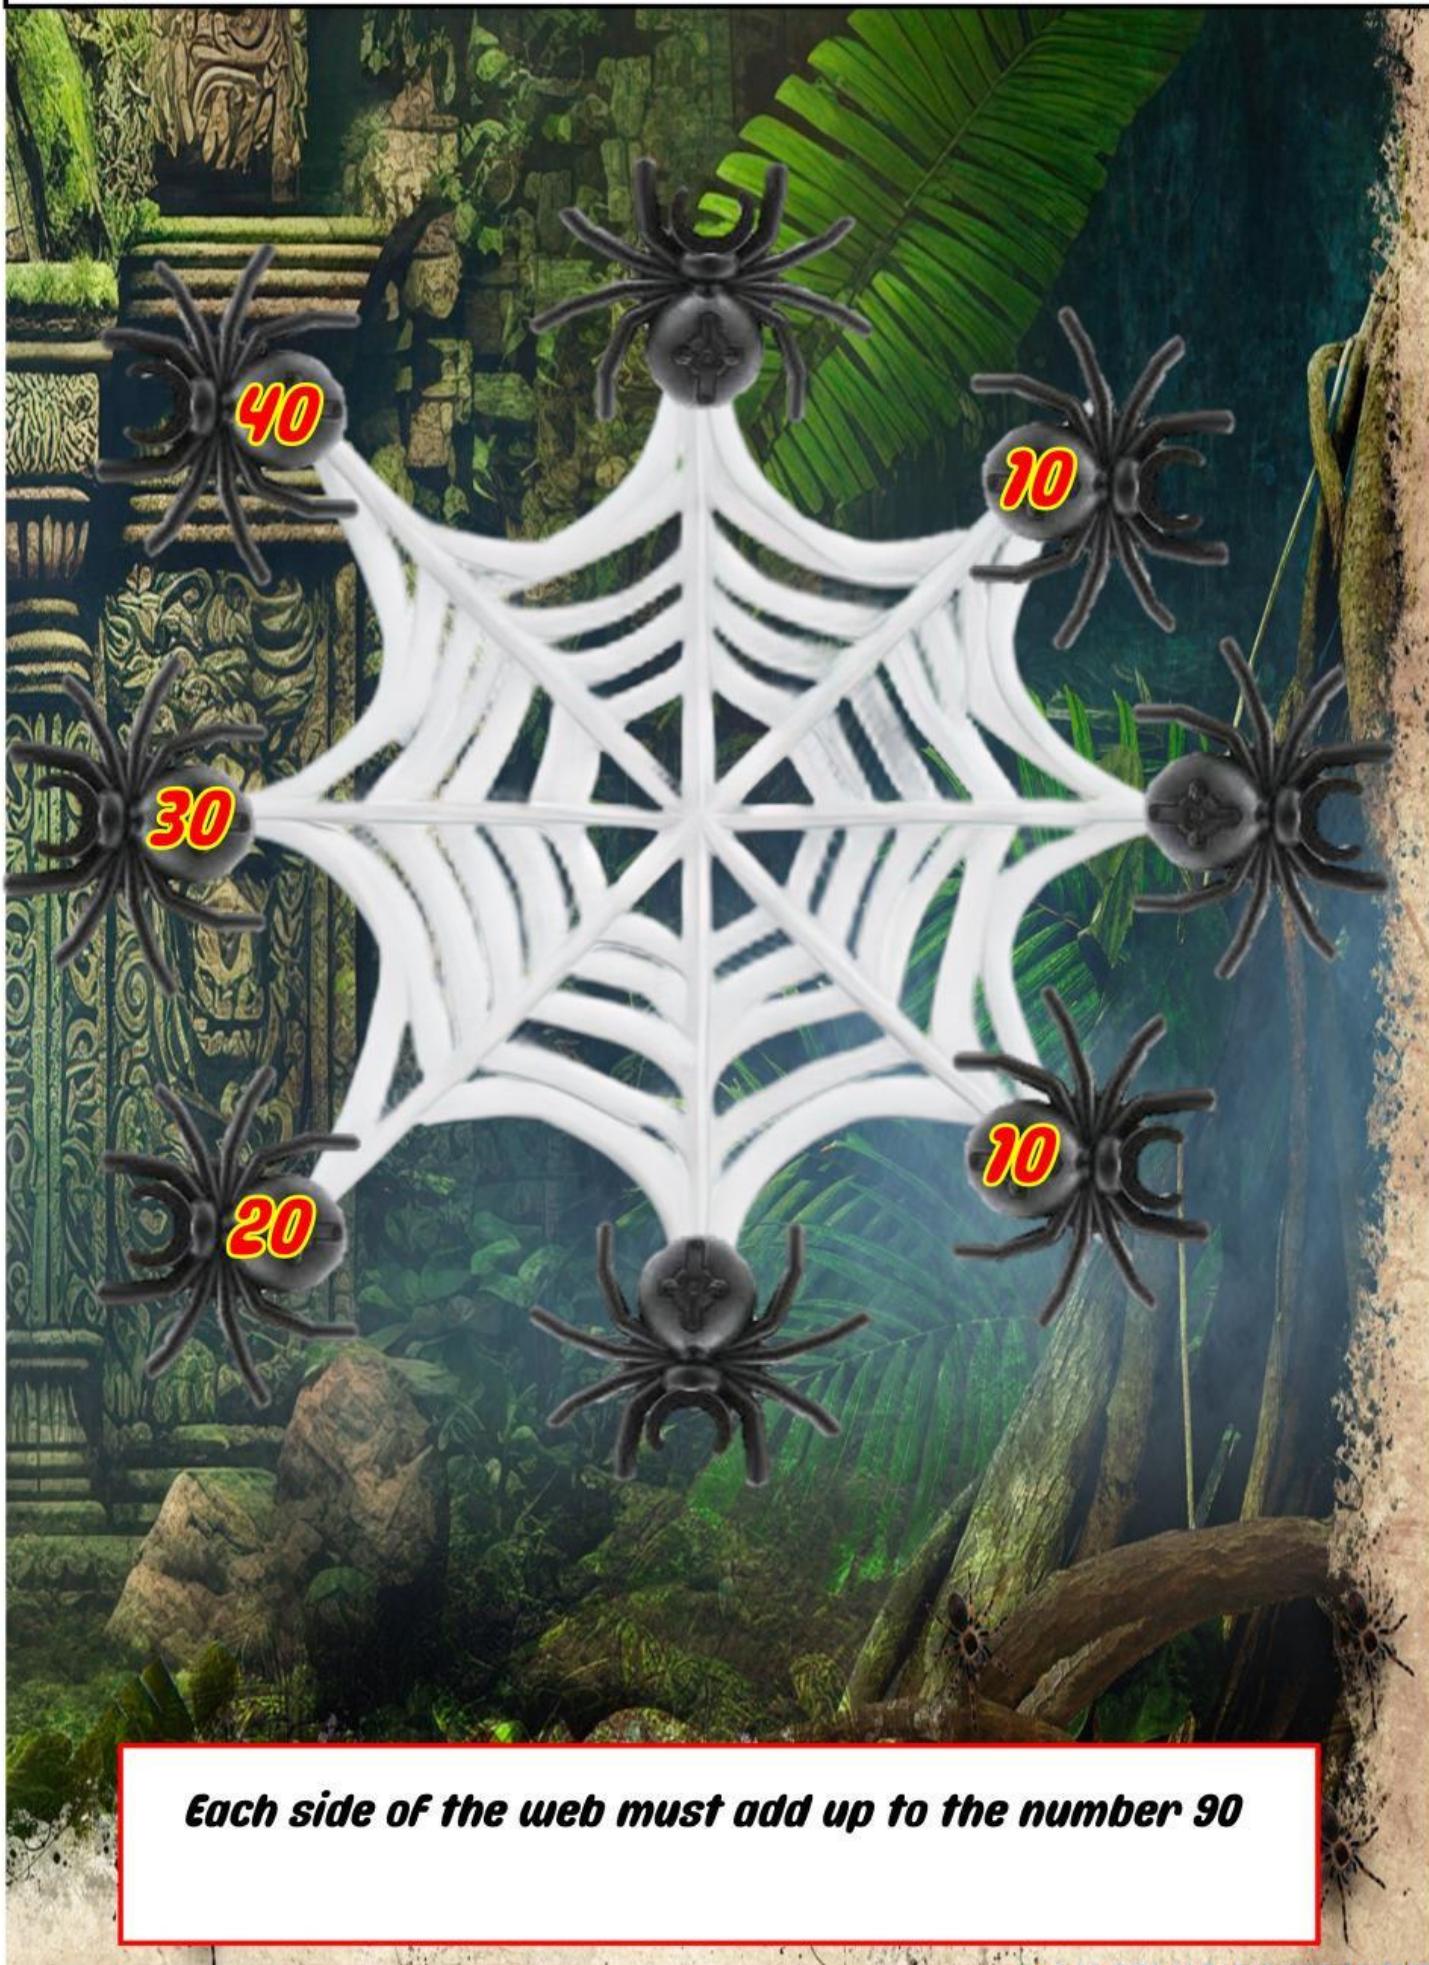

$$632 - \text{Yellow Brick} = 68$$
