

water	solar energy	wind	nuclear energy
-------	--------------	------	----------------

1. A good place to change \_\_\_\_\_ to energy is near the sea because of the sea breezes.
2. They are putting solar panels on the roof of our building to produce \_\_\_\_\_.
3. When energy comes from \_\_\_\_\_, we call it hydro energy.
4. They are reducing the use of \_\_\_\_\_ because it is not safe to produce.
