Political Map of Colombia

Instructions. Complete the map of Colombia with the names of its departments.

A political map of Colombia is shown, divided into 32 distinct colored regions. Each region is connected by a thin black line to a corresponding empty rectangular box, intended for the student to write the name of the department. The boxes are arranged around the map: 10 on the left, 10 on the right, 4 at the top, and 8 at the bottom. An inset map in the upper left quadrant shows the continent of South America with Colombia highlighted in blue.
