Day 1

Day 1

We arrived in Piraeus early this morning. Liz has never seen the Parthenon. I've been to Athens once before, so I'm going to be her tour guide. We're going there tonight!

In the afternoon, we went by train from Piraeus into the city of Athens, and walked up to the Parthenon – amazing!

Day 2

Back to Athens again and this time we found a restaurant in the Plaka area. We've eaten Greek food many times back in New Zealand, but this is real Greek food! This is the first time in my life that I've tried octopus and it was delicious!

Day 3

We stayed overnight in Athens and then took a bus down to Cape Sounion in the afternoon to visit the Temple of Poseidon. We've seen many sunsets in our lives, but this was the most beautiful – the sun going down into the Aegean Sea.

Day 4

We left Piraeus early this morning and sailed for twenty hours to the island of Santorini. We arrived in the old port late in the evening. Tomorrow morning we're going up to the village – by donkey! I've ridden horses, camels, and elephants but I've never ridden a donkey!

Day 5

Donkey disaster! I'm writing this from a hospital bed in Athens. We started our donkey ride this morning and I made a big mistake: I walked behind the donkey and it kicked me in the stomach! There was no hospital on the island, so they took me by helicopter to Athens. I've broken three bones ... and I still haven't ridden a donkey. But I have flown in a helicopter!

Eunice Huthart has accidents all the time. She's jumped off ships and fallen off buildings. She's driven cars very fast and crashed them, and she's loved every moment. Eunice is a stunt double in films and does things that most of us think are crazy.

Crashing a car at high speed, walking away, and then waking up the next morning with a few aches and pains is all part of the job for a stunt double.

Eunice has done stunts in Harry Potter and James Bond films. She's been Angelina Jolie's stunt double in many films, from the *Lara Croft: Tomb Raider* series to *Maleficent*.

Eunice has broken some bones, and perhaps her worst accident was during *Titanic* when she jumped off the ship onto some boxes and broke her cheek bone. Eunice worked on *Titanic* in her first year as a stuntwoman, in 1996.

Broken bones and other injuries are normal for stunt doubles. So why do they do it? Most talk about the excitement, the challenge and the big money.

Eunice now works more as a stunt director, directing other stunt performers. Altogether she has worked on over fifty films.

Eunice loves her job, but in the end she's a family person. When asked about the most memorable moment in her life, she talked about the birth of her daughter and Liverpool winning the European Cup.

Waking up with aches and pains is all part of the job.

Broken bones and other injuries are normal.
