

CONCENTRATION OF SOLUCION

1.- Calculate the concentration in percentage of hidrokloric acid in a solution with 250 ml of chl in to 600 ml of wáter.

Result

2.- What's the concentration in part per million(ppm) of 4 milligrams(mg) of DDT (pertificate) in 1.3 kilograms of huachinango fish tissue?

Result

3.- What is the concentration of a solution of nitric acid (30g HNO₃) dissolved in 400.00ml of solution?

Result

4.- A saline solution of 355ml has 36.5g of NaCl dissolved in it.

What is the concentration of the solution?

Result

5.- Calculate the volue percent of a solution that is prepared by mixing 519.2 milliliters of helium and 168.4 Milliliters of molecular chlorine.

Result

6.- What is the concentration in ppm of selenium if 1.3 milligrams is found in 2500 kg of soil?

Result

7.- Calculate the mass of solute PCB's in a 64kg person if the concentration is 4 ppm?

Result
