EXERCISE 2

Relate the components of personal protective equipment to their characteristics:

[ ] Cotton overalls	a. Illuminates areas when power is cut or to inspect electrical panels
[ ] Dielectric gloves	b. Prevents or mitigates blows due to falling material on the head in addition to protecting the face from sparks or flashes.
[ ] Helmet with chinstrap and dielectric screen	c.Prevents electric shocks to the user
[ ] Dielectric boots	d. Carry tools so they are easy to access.
[ ] Flashlight	e. It allows free movement but should not be loose to avoid tangling with equipment.
[ ] Belt with bags	f. They prevent the passage of current through the body and prevent slipping.
