Camels

Example

Camels have unusual shapes on their backs. These are called
'humps'.

1 are two kinds of camel. The first kind has one

2 hump on back and the other kind has two humps.

3 Most camels in the world live the weather
is hot and dry – in places like deserts, for example. The people

4 also live in these places might

5 camels to carry all their heavy things on

6 long journeys. These people have camels for
thousands of years, too.

Camels can live without food or water for six months and most camels

7 live forty and fifty years! About fourteen
million camels live in the world at the moment.

8 It is easier for camels to live in deserts for
other animals because their bodies are high above the hot ground and

9 their large feet help them quickly across sand.

10 A camel can run across sand really fast.
camels can travel 45 kilometres in one hour.
