$24 + 43$	
	
	

The diagram shows a large rectangle divided into four quadrants. The top-left quadrant contains the equation $24 + 43$. The top-right quadrant contains base ten blocks representing 24 + 43: two tens rods and four units rods. The bottom-left quadrant contains base ten blocks representing 24 + 43: two tens rods and four units rods. The bottom-right quadrant contains base ten blocks representing 60 + 7: six tens rods and seven units cubes. In the center of the large rectangle, overlapping the four quadrants, is a smaller rectangle containing the equation $60 + 7$.
