

Question 4.1

You will hear two versions of a recording of a virtual instrument violins. The first version has no effects or processes. The second version has had reverb applied.

- Identify which reverb shown below (1, 2 or 3) has been applied, and justify your answer.

Reverb applied (1, 2 or 3):

a) Justification

- Listen to another excerpt. A de-esser has been applied. Name the effect that has also been applied to the vocal sample.

b) Process

- Listen to the excerpt again. Identify **two** controls commonly found on a de-esser.

c) Control 1

Control 2
