

COPY the chart and COMPLETE to compare PLANTS and ALGAE. Then, complete the text below:

	Are they UNICELLULAR OR MULTICELLULAR?	Can they MAKE their own FOOD? (Yes / No)	Can they move around? (Yes / No)	Where do they live? (in water or on land)
PLANTS 				
ALGAE 				

Plants are always multicellular living things, but algae can be both or
 Both plants and algae can, but they can't
 Plants live on, but live in water and they belong to the kingdom.
