

TASK:

Input the correct amplitude and the correct period (degree form).

- | | | |
|------------------------------|----------------------------------|--------------------------------|
| 1. $y = \sin 4x$ | Amplitude : <input type="text"/> | Period: <input type="text"/> ° |
| 2. $y = \cos 5x$ | Amplitude : <input type="text"/> | Period: <input type="text"/> ° |
| 3. $y = 4 \cos 4x$ | Amplitude : <input type="text"/> | Period: <input type="text"/> ° |
| 4. $y = \tan 2x$ | Amplitude : NONE | Period: <input type="text"/> ° |
| 5. $y = -2 \sin x$ | Amplitude : <input type="text"/> | Period: <input type="text"/> ° |
| 6. $y = 2 \cos(-4x)$ | Amplitude : <input type="text"/> | Period: <input type="text"/> ° |
| 7. $y = 3 \sin \frac{2}{3}x$ | Amplitude : <input type="text"/> | Period: <input type="text"/> ° |
| 8. $y = -\tan \frac{1}{3}x$ | Amplitude : NONE | Period: <input type="text"/> ° |
| 9. $y = -4 \cos 5x$ | Amplitude : <input type="text"/> | Period: <input type="text"/> ° |
| 10. $y = 3 \sin(-2x)$ | Amplitude : <input type="text"/> | Period: <input type="text"/> ° |
