

PHÉP TRỪ TRONG PHẠM VI 6

Em hãy hoàn thành các phép tính sau.

Điền số.

$$4 - \square = 1$$

$$6 - \square = 1$$

$$4 - \square = 3$$

$$6 - \square = 5$$

$$5 - \square = 2$$

$$6 - \square = 2$$

$$5 - \square = 3$$

$$6 - \square = 4$$

Từ phép tính cộng, em hãy viết các phép tính trừ tương ứng. (theo mẫu)

$$2 + 4 = 6$$

$$6 - 2 = 4$$

$$6 - 4 = 2$$

$$1 + 5 = 6$$

$$6 - \square = 5$$

$$6 - \square = 1$$

$$1 + 5 = 6$$

$$\square - 1 = \square$$

$$\square - 5 = \square$$

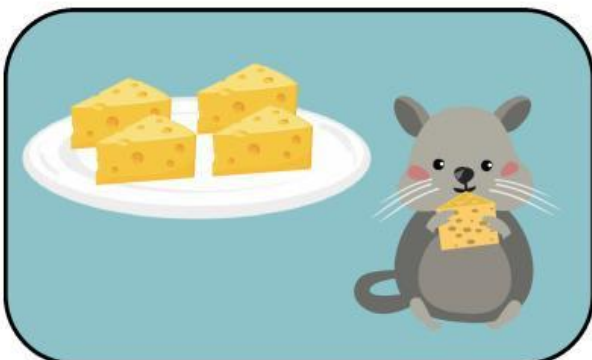

$$1 + 4 = 5$$

$$\square - 1 = \square$$

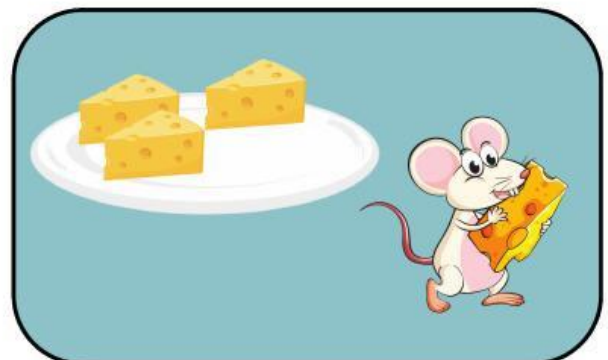

$$\square - 4 = \square$$

Quan sát tranh và viết phép tính thích hợp.

$$\square - \square = \square$$

$$\square - \square = \square$$
