Reading

Hello. My name is Dan Singer and I am learning how to make clothes because I think that men's clothes in shops are so boring. The ones you can buy in my town are always grey or black and I prefer bright colours. I started learning three years ago. The first thing I made for myself was a pair of pyjamas because I was cold at night. After that I started to make more difficult things like jeans. At first, I made a mistake and the legs were too long. I had to change them a few times but now they are perfect!

Some people say it is cheaper to make your own clothes but actually I don't think it is. Many shops sell shirts which were made in factories in other countries and they don't cost much. When you make clothes, you have to buy things like a sewing machine and that can be expensive.

I can work faster now than when I started, but it still takes about a month to finish big things like a coat or a jacket. My latest project is a dress for my wife. I've nearly completed it. It's a surprise for her birthday and I hope she doesn't find out. I'm making the dress out of wool because I think she needs a warm one for winter.
