FORMS OF ENERGY

There are nine forms of energy. They are:

HEAT, LIGHT, SOUND, ELECTRICAL, KINETIC (also called MOVEMENT), ELASTIC, GRAVITATIONAL POTENTIAL, NUCLEAR and CHEMICAL.

1.Look at each pair of pictures below and decide which form of energy they represent.

2. Look at each of the pictures in the table. Some of them give us more than one form of energy.

Write down three examples in sentences like this "The Bunsen burner gives off heat and light energy".

group (1)
.....

The Sun	A light bulb	Form of energy
A bonfire	A Bunsen burner	Form of energy
A speeding bullet	A galloping horse	Form of energy
