الفصل الدراسي : ( الثاني)

# FORMS OF ENERGY

**There are nine forms of energy. They are:**

**HEAT, LIGHT, SOUND, ELECTRICAL, KINETIC (also called MOVEMENT), ELASTIC, GRAVITATIONAL POTENTIAL, NUCLEAR and CHEMICAL.**

**1.Look at each pair of pictures below and decide which form of energy they represent.**

**2. Look at each of the pictures in the table. Some of them give us more than one form of energy.**

**Write down three examples in sentences like this "The Bunsen burner gives off heat and light energy".**

| | | |
|---|---|---|
|  A megaphone |  A singing zebra | Form of energy |
|  A stretched bow |  A catapult | Form of energy |
|  A nuclear power station |  An atom bomb | Form of energy |
