Semiquavers and Grouping

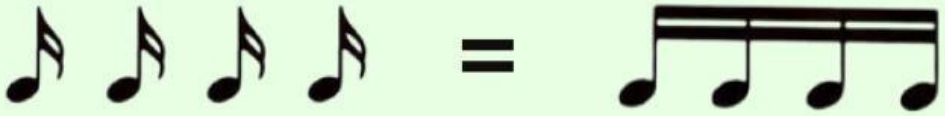

The semiquaver is the shortest time value we will meet at Grade 1. Semiquavers have two tails.

separated grouped

two quavers

four semiquavers

These notes all equal one beat per group:

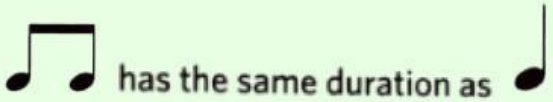

1 crotchet	2 quavers	4 semiquavers
		
1 beat	1 beat	1 beat

LIVEWORKSHEETS

EXERCISE

TICK TRUE OR FALSE FOR EACH STATEMENT!

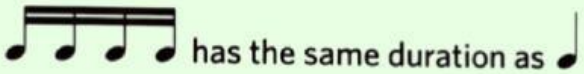

Example:

 has the same duration as

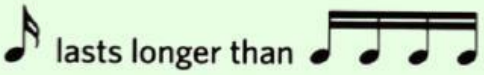

TRUE FALSE

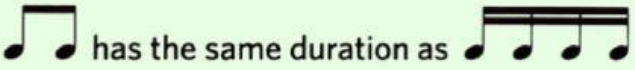

2 quavers 1 crotchet

Since 2 quavers equal 1 beat
And 1 crotchet is also 1 beat,
Then the answer will be "TRUE"

 has the same duration as TRUE FALSE

 lasts longer than TRUE FALSE

 lasts longer than TRUE FALSE

 has the same duration as TRUE FALSE

 and each last for one crotchet beat TRUE FALSE

 has the same duration as TRUE FALSE

 lasts longer than TRUE FALSE

 lasts longer than TRUE FALSE

 has the same duration as TRUE FALSE

 and each last for one crotchet beat TRUE FALSE
