_____ / 8 (1 point each)

F Read the article. Then choose the correct answer.

VACATION DANGERS

You might not connect the two, but did you know that going on vacation can be dangerous or even horrible?

If you go on vacation by car, did you know that it can be a dangerous way to travel? People usually have accidents because they are very tired after driving for hours. This was what happened to San Diego TV news reporter Michel Grendo. He told us about his experience. When his late-night TV news show ended at midnight, he took his car and drove to Miami Beach for a long weekend. Unfortunately, he never arrived. His car had a small accident and he hit a tree. He called an ambulance because he broke his leg and spent his whole vacation in the hospital! Nobody else was hurt.

If driving is not for you, you could take a bus. In the summer, there are a lot of people who go on vacation at the same time as you. If it's hot, people often get angry, and a perfect vacation can soon become horrible. Geologist Sarna Mendez told us about her experience. She was on a tour bus to see the beautiful White Sands National Monument in south-central New Mexico. On the first day, the bus broke down in the middle of the desert, miles from anywhere. They slept on the bus for two terrible nights before a rescue bus arrived. Sarna said it was a bus trip to forget!

- | | |
|--|---|
| 1 What time of day or night did Michel start his vacation and why? | 4 How can people feel when it is hot? |
| A In the morning before his TV news show. | A strange |
