

ورقة عمل (1-2-1): رؤية الحاسب

بالتعاون مع مجموعتك، استكمل المخطط التالي لتحديد التطبيقات التي
تستخدم رؤية الحاسب

The diagram consists of a central circle divided into four equal quadrants by a vertical and a horizontal line. In the center of the circle, where the lines intersect, there are two curved arrows forming a circle, indicating a clockwise flow from one quadrant to the next. Each of the four quadrants contains a horizontal dotted line for writing. Surrounding the central circle are four gray rectangular boxes, one in each corner. Each box contains three horizontal dotted lines and a bullet point for additional notes.
