

Read and answer the question true or false.

### The Sonoran Desert by Joe

Last spring, our class went to the Sonoran Desert in Mexico. It is one of the biggest and hottest deserts in North America. We went in spring because the summer is too hot.

We stayed there for a week. When we arrived, it was sunny and windy. On our first day, we visited the Altar sand dunes. Some of the dunes are more than one hundred metres high. They were beautiful and we enjoyed climbing on them.

It's very dry in the Sonoran Desert. There are lots of cacti, but there aren't usually many other plants. We were lucky because on our second day it started to rain. When it rains, the desert changes because flowers can grow. We went hiking on the last day and there were beautiful flowers everywhere!

1. The Sonoran Desert is in Brazil.
2. It isn't a big dessert.
3. The dessert is very hot in winter.
4. The sand dunes are very high.
5. It never rains in the Sonoran Desert.
6. Flowers can grow in spring in the Sonoran Desert.
