

MAMMALS vs BIRDS

1. They are vertebrates.

<input type="checkbox"/> Mammals	<input type="checkbox"/> Birds	<input type="checkbox"/> Both
----------------------------------	--------------------------------	-------------------------------

2. They have feathers.

<input type="checkbox"/> Mammals	<input type="checkbox"/> Birds	<input type="checkbox"/> Both
----------------------------------	--------------------------------	-------------------------------

3. Their bodies are covered with fur or hair.

<input type="checkbox"/> Mammals	<input type="checkbox"/> Birds	<input type="checkbox"/> Both
----------------------------------	--------------------------------	-------------------------------

4. They use their lungs to breathe.

<input type="checkbox"/> Mammals	<input type="checkbox"/> Birds	<input type="checkbox"/> Both
----------------------------------	--------------------------------	-------------------------------

5. They have wings.

<input type="checkbox"/> Mammals	<input type="checkbox"/> Birds	<input type="checkbox"/> Both
----------------------------------	--------------------------------	-------------------------------

6. They need food and water.

<input type="checkbox"/> Mammals	<input type="checkbox"/> Birds	<input type="checkbox"/> Both
----------------------------------	--------------------------------	-------------------------------

7. They nurse their young with milk.

<input type="checkbox"/> Mammals	<input type="checkbox"/> Birds	<input type="checkbox"/> Both
----------------------------------	--------------------------------	-------------------------------

8. They are warm-blooded animals.

<input type="checkbox"/> Mammals	<input type="checkbox"/> Birds	<input type="checkbox"/> Both
----------------------------------	--------------------------------	-------------------------------

9. They have a beak and claws.

<input type="checkbox"/> Mammals	<input type="checkbox"/> Birds	<input type="checkbox"/> Both
----------------------------------	--------------------------------	-------------------------------

10. They give birth to their young.

<input type="checkbox"/> Mammals	<input type="checkbox"/> Birds	<input type="checkbox"/> Both
----------------------------------	--------------------------------	-------------------------------

REPTILES vs FISH

1. They are vertebrates.

<input type="checkbox"/> Reptiles	<input type="checkbox"/> Fish	<input type="checkbox"/> Both
-----------------------------------	-------------------------------	-------------------------------

2. Most of them have four limbs.

<input type="checkbox"/> Reptiles	<input type="checkbox"/> Fish	<input type="checkbox"/> Both
-----------------------------------	-------------------------------	-------------------------------

3. They have dry, rough skin.

<input type="checkbox"/> Reptiles	<input type="checkbox"/> Fish	<input type="checkbox"/> Both
-----------------------------------	-------------------------------	-------------------------------

4. They use their lungs to breathe.

<input type="checkbox"/> Reptiles	<input type="checkbox"/> Fish	<input type="checkbox"/> Both
-----------------------------------	-------------------------------	-------------------------------

5. They lay eggs.

<input type="checkbox"/> Reptiles	<input type="checkbox"/> Fish	<input type="checkbox"/> Both
-----------------------------------	-------------------------------	-------------------------------

6. They breathe through gills.

<input type="checkbox"/> Reptiles	<input type="checkbox"/> Fish	<input type="checkbox"/> Both
-----------------------------------	-------------------------------	-------------------------------

7. They have fins and scales.

<input type="checkbox"/> Reptiles	<input type="checkbox"/> Fish	<input type="checkbox"/> Both
-----------------------------------	-------------------------------	-------------------------------

8. They lay their eggs on land.

<input type="checkbox"/> Reptiles	<input type="checkbox"/> Fish	<input type="checkbox"/> Both
-----------------------------------	-------------------------------	-------------------------------

9. Most of them are carnivores.

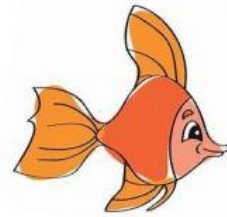

<input type="checkbox"/> Reptiles	<input type="checkbox"/> Fish	<input type="checkbox"/> Both
-----------------------------------	-------------------------------	-------------------------------

10. They are cold -blooded animals.

<input type="checkbox"/> Reptiles	<input type="checkbox"/> Fish	<input type="checkbox"/> Both
-----------------------------------	-------------------------------	-------------------------------

BIRDS vs FISH

1. They are vertebrates.

☐ Fish

☐ Birds

☐ Both

2. They are covered with scales.

☐ Fish

☐ Birds

☐ Both

3. They live underwater.

☐ Fish

☐ Birds

☐ Both

4. They use their lungs to breathe.

☐ Fish

☐ Birds

☐ Both

5. They lay eggs.

☐ Fish

☐ Birds

☐ Both

6. They have lungs.

☐ Fish

☐ Birds

☐ Both

7. They use their gills to breathe.

☐ Fish

☐ Birds

☐ Both

8. They have a tail.

☐ Fish

☐ Birds

☐ Both

9. They lay their eggs in nests.

☐ Fish

☐ Birds

REPTILES vs AMPHIBIANS

1. They are vertebrates.

☐ Reptiles

☐ Amphibians

☐ Both

2. They are covered with scales.

☐ Reptiles

☐ Amphibians

☐ Both

3. They have bare and moist skin.

☐ Reptiles

☐ Amphibians

☐ Both

4. They are born with gills and then they develop lungs.

☐ Reptiles

☐ Amphibians

☐ Both

5. They lay eggs.

☐ Reptiles

☐ Amphibians

☐ Both

6. They can breathe through the skin.

☐ Reptiles

☐ Amphibians

☐ Both

7. They use their gills to breathe when they are babies.

☐ Reptiles

☐ Amphibians

☐ Both

8. They perform metamorphosis.

☐ Reptiles

☐ Amphibians

☐ Both

9. They lay their eggs on land.

☐ Reptiles

☐ Amphibians

☐ Both

10. They are cold-blooded animals.

☐ Reptiles

☐ Amphibians

☐ Both
